

How To Redirect Go Daddy Domain to Bluehost

1. Log on to Go Daddy account
2. Click on profile icon on top right
3. Next to domain name, click on "DNS"
4. Scroll down to forwarding
5. Click on "Add"
6. Choose either "http" or "https" option
7. Type in Bluehost domain name you want to re-direct site to. Don't include "WWW."
